REGIS UNIVERSITY

COLLEGE OF COMPUTER & INFORMATION SCIENCES

CC&IS Policies & Procedures Syllabus Addendum

The following policies and procedures are incorporated by reference in the syllabus for every course offered by the College of Computer & Information Sciences (CC&IS) at Regis University. Additional information on these and other policies that govern each course and program can be found in the latest edition of the University Catalog, available at http://www.regis.edu/Academics/Course%20Catalog.aspx.

CC&IS Academic Honor Code & Academic Integrity

Students and faculty of CC&IS are committed to the highest standards of academic integrity and assume full responsibility for maintaining those standards. All members of the CC&IS community are to exhibit the qualities of honesty, loyalty and trustworthiness in all academic and clinical activities, holding themselves and each other accountable for the integrity of the learning community.

It is the responsibility of each student to review all aspects of the course syllabus and agree to adhere to this College of Computer & Information Sciences Academic Honor Code. In doing so, the student acknowledges that the work represented in all assignments and all examinations is his or her own and that he or she has neither given nor received unauthorized information. Furthermore, the student agrees not to divulge the contents of any assignment or examination to another student in any semester.

The CC&IS Academic Honor Code applies to any student in a CC&IS course, regardless of the student's home college or program, and will be enforced according to the policies and procedures of the Code. (In the cases of joint academic programs (e.g. National University of Ireland, Galway and Regis; the academic integrity policies that comprise those joint program agreements apply and take precedence.)

Violations of academic integrity are taken very seriously in the College and include cheating, plagiarism, fabrication, collusion and other forms of academic misconduct. All violations will be reported with appropriate sanctions applied. All faculty have access to plagiarism detection software, which can be used with or without a student's knowledge in any CC&IS course.

At Regis University, academic integrity is viewed as an academic matter rather than an issue of student conduct. In order to establish and foster a community in which academic dishonesty and misconduct are socially and unacceptable, all students and faculty are expected to adhere to the CC&IS Academic Honor Code.

The complete Regis Academic Honor Code and Academic Integrity Policy can be found here: http://www.regis.edu/About-Regis-University/Policies-and-Procedures/Academic-Integrity-Policies.aspx

Student Standards of Conduct

In the spirit of the Jesuit mission of Regis University, CC&IS students and faculty share responsibility for maintaining an appropriate learning environment. This includes using information technology responsibly in online and other courses. In order for faculty members to provide and students to receive effective instruction in classrooms, laboratories, online courses, and other learning areas, the College and faculty expect students to conduct themselves in an orderly and cooperative manner and not engage in disruptive behavior, disorderly conduct or intentionally interfere in the freedom of expression of others.

"Disruptive Behavior" or "Disorderly Conduct" as applied in all academic settings and formats (i.e., classroom, online, independent study, etc.) means behavior that a reasonable faculty member or student would view as intentionally or recklessly interfering with normal academic functions, university events, or university sponsored activities. Examples include, but are not limited to: persistently speaking or commenting without being recognized or interrupting other speakers; behavior that distracts the class from the subject matter or discussion; or, in extreme cases, physical threats, harassing behavior or personal insults; refusal to comply with faculty direction including refusal to work in a group, using a cell phone or pager during a classroom session, inappropriate mediated communication; or behavior that has a negative impact in any learning environment.

Disruptive behavior also includes any other behavior covered by the Regis University Student Handbook: Code of Conduct which can be found at www.regis.edu. Students who fail to adhere to acceptable behavioral standards may be subject to discipline which may include reprimand, dismissal from the class and/or expulsion from the College of Computer and Information Sciences. Students who wish to appeal a decision regarding the consequences of their behavior should follow the Appeal Process outlined in the Regis University Student Handbook.

HIPAA Privacy & Security Reminder – HIM/HIIM Programs

The goals for maintaining rigorous adherence to HIPAA compliance requirements within all Regis University-sponsored programs, projects and activities are designed to:

- Ensure the security and confidentiality of Protected Health Information (PHI) and Electronic Protected Health Information (ePHI) as covered by HIPAA;
- Protect against any anticipated threats or hazards to the security or integrity of such information, and
- Protect against unauthorized access, use or disclosure of such information.

Each student in any course that handles or discusses PHI or ePHI should have completed the necessary training on how to comply with the policies and procedures for maintaining HIPAA compliance. If you have not received or completed your HIPAA training at Regis University, you must inform your instructor.

The complete HIPAA Privacy & Security policy can be found here: http://www.regis.edu/About-Regis-University/University-Offices-and-Services/Auxiliary-Business/HIPAA.aspx.

Human Subjects Institutional Review Board (IRB)

The role of the Regis University Human Subjects Institutional Review Board (IRB) is to verify and approve research involving human subjects. The IRB convenes monthly.

The IRB reviews three types of research activities involving human subjects:

- Research studies which are exempt from formal IRB review, but need an IRB representative to verify their eligibility for exemption
- Research studies which qualify for an expedited review process performed by two designated IRB members
- Research studies which require formal review by a quorum of the IRB in regular session

To contact the IRB, please send an email to irb@regis.edu. More information about the IRB and its processes can be found here: http://regis.edu/Academics/Academic-Grants/Proposals/Regis-Information/IRB.aspx

Diversity

At Regis University, the term "diversity" affirms our faith-inspired commitment to build an inclusive community that values the dignity and contributions of all our members. In this community, human differences thrive in a learning environment characterized by the Jesuit traditions of mutual respect and the pursuit of justice. Age, gender, race/ethnicity, class, disability, sexual orientation, religion, and other human differences contribute to the richness and vitality of our living community.

For more information about Regis University's diversity initiatives, contact the Assistant Vice President for Diversity at (303) 964-5304 or diverse@regis.edu.

Equal Access and Disability Services

Equal access to education means equal opportunity to learn in an academic setting. Under Section 504 of the 1973 Rehabilitation Act and the Americans with Disabilities Act of 1990, students with documented disabilities who are otherwise qualified have a right to equal access to classes at Regis University. If you have a documented disability requiring academic adjustments for this class, please contact the Director of the Office of Disability Services at 303-458-4941 for discussion of disability issues. Since accommodations are not retroactive, it is suggested that you contact the Disability Services Office as soon as possible; adequate lead-time may be required to receive accommodations, including review of appropriate documentation.

Office of Disability Services (ODS)

The Office of Disability Services at Regis University is responsible for assisting students with documented disabilities in all Regis University Colleges with reasonable and appropriate accommodations. Accommodations will be provided to students only after:

- Students provide the ODS with current documentation that demonstrates a currently disabling condition that interfere with one or more life functions as defined by the ADA
- Students ask for services to assist them in accomplishing their educational goals while attending Regis University

- Students request all disability related services through the ODS, Life Directions Center, 303-458-4941
- Students request accommodations each term
- Educate students about their rights and responsibilities with respect to their disabilities
- Educate the campus community through the use of brochures, in-service workshops, and other consultations in order to create an inclusive educational environment
- Allow students the right to choose when or whether to access ODS services

Regis University is committed to ensuring that students with documented disabilities have equal access to Regis University's programs and services through the ODS.

Office of Disability Services
3333 Regis Blvd

CC&IS Late Assignments/Assignment Revisions Policy

Each facilitator will provide specific late assignments/assignment revisions policies not to exceed the maximum official policy of the College of Computer and Information Sciences.

Occasionally, work, health, and family obligations have priority over course work. If you experience these issues, please notify the facilitator in advance. If an assignment is due, please make every effort to submit your assignment on time. In the case of a negotiated absence or delay, assignments turned in by the agreed upon due date will receive full credit.

If you have not negotiated with the facilitator, assignments turned in late will be graded, and then reduced by 25%. Assignments will not be accepted later than one week after due date.

Attendance & Participation

Students are expected to make every effort to attend all class meetings. Attendance standards for individual courses are established in writing by the instructor at the first class session. Students unable to attend the first class must contact the facilitator ahead of time.

Email Communication

Email communication between facilitators and students must be conducted using Regis email addresses, or, in the case of online courses, must use the course mail system.

Changes to Learning Activities

On occasion the course facilitator may at his or her discretion alter the Learning Activities shown in this Syllabus. The alteration of Learning Activities may not in any way change the Student Outcomes or the grading scale for this course as contained in this syllabus. Examples of circumstances that could justify alterations in Learning Activities could include number of

students in the course; compelling current events; special facilitator experience or expertise; or unanticipated disruptions to class session schedule.

Confidential and Proprietary Information Policy

For class projects that relate to a student's employment, the student is responsible for complying with all applicable policies of the employer, including those related to non-public, confidential or proprietary information.

Emergency Alerts, Inclement Weather and Campus Closures

Students should sign up for RU Alert, Regis University's official emergency notification system. In the event of inclement weather (i.e., blizzard), students can call the University Weather line at 303-458-1818 for closure information.

Dayton Memorial Library

The Regis University Libraries are dedicated to providing a full range of library services and resources to Regis students and faculty, without regard to their geographic location.

- Full-service library (Dayton Memorial Library) at Denver Lowell campus.
- Library collections include over 260,000 print volumes and 2,500 current journal subscriptions.
- Access to online resources selected to support all Regis programs.
- Full-text articles and reference information available through licensed databases.
- Interlibrary Loan services available, usually at no extra charge—we can get articles and books for you whether Regis owns them or not.
- Article and book delivery services for Regis distance students*.
- Personal reference and research assistance provided over 70 hours a week from reference desk at Dayton Memorial Library. Assistance by phone (including toll-free access) as well as by e-mail, by chat (available 24/7) and in person.
- Borrowing privileges and in-house access to library resources for alumni and community patrons at Dayton Memorial Library.

For additional information and resources including research and services provided by Dayton Memorial Library visit their web site at http://www.regis.edu/library.htm.
