Hot News:

Office Supply Process Update: We are pleased to provide an update on the transition from HR to Purchasing for office supply ordering. Department heads and managers have been advised to provide designees who will be responsible for ordering for their respective areas. These designees have been invited to our upcoming training sessions in March. Once we move to full implementation of the online system (targeted for the **end of the fiscal year**), those departments that have not had any attendance at the trainings will not be able to place orders until make-up training can be scheduled.
If you have any questions about this process, please contact Christine Rotolo (ext. 9325, rotolo0730@konamigaming.com).

Work/Life Balance:

If you have not yet filed your 2013 tax return, all employees are eligible for **one free federal filing online using TaxACT**. More information about TaxACT is available through Behavioral Healthcare Options (BHO), your Employee Assistance Program. Log on to their website with company code **KONAMI**.

The Life Connection program is also available to our employees through BHO, free of charge. This program offers professional counseling, telephonic consultations, and online resources to assist you and your household members with the normal stressors of daily living. To arrange for a confidential visit with a professional counselor, to request a telephonic consultation, or for assistance with online resources, call (800) 280-3782. Crisis services are also available 24/7.

Community Involvement:

HABITAT FOR HUMANITY
SATURDAY, MARCH 8TH, 7:30AM-2:30PM
10 volunteers still needed!

If you are interested in volunteering, please contact Samantha Curalli (ext. 1400, curalli1007@konamigaming.com)

Benefits Update:

We recently became aware that employees placing member service calls to Health Plan of Nevada (HPN) for HMO and Sierra Health and Life (SHL) for PPO may experience a significant wait time to speak to a member services representative, which could be in excess of 45 minutes. The large volume of calls is due to the open enrollment period under the Affordable Care Act (ACA) and is expected to continue through March.

In light of this, we encourage the use of HPN and SHL's on-line tools, HPN@YourService (healthplanofnevada.com) and SHL@YourService (sierrahealthandlife.com) and you will find the following:
- Review Claim Status
- Print Explanation of Benefits
- Find a Provider
- Pharmacy Tools
- **NEW** Print ID Cards

For those issues that cannot be addressed by the websites, such as changing your PCP, the Konami Benefits & Service Center is available at (888) 566-2641 during business hours or via email at konami@cbcins.com 24/7 to assist with your benefits needs. Southwest Medical Associates (SMA) also offer the ability to schedule appointments online, for more information visit their website at smalv.com.

Outlook Reminder:

It is recommended that our team members utilize Outlook's out-of-office communication feature if you are planning to be out of the office for more than (1) day. This provides an opportunity for you to include contact information of other team members that serve as your back-up when you are out of the office. This will ensure we are providing excellent internal and external customer service.
